FOR YOUR INTERIOR

Our existing range of Vilo SPC Stone, VOX Rigio Wood effect and VOX Rega Herringbone Wood effect FLOORING compliment our Vilo SPC and Decorative PVC wall collections.

Thanks to the use of polymer technology, SPC (Stone Polymer Composite) vinyl flooring has high rigidity, durability, and strength. It can be used in both domestic and public spaces. Thanks to the 20-year guarantee, you can be sure that this is the right choice.

Vinyl flooring is nice and silent in everyday use bringing comfort and serenity to everyday life.

SPC Vinyl is a flooring with exceptional impact resistance which makes it a popular choice in commercial and industrial spaces as well as domestic interiors.

The same floor in the living room and bathroom? Now it is possible, because even direct contact with water does not alter the performance of SPC floors. As an additional safety feature, the strong locking system ensures a perfectly tight joint between the panels.

UNDERLAY

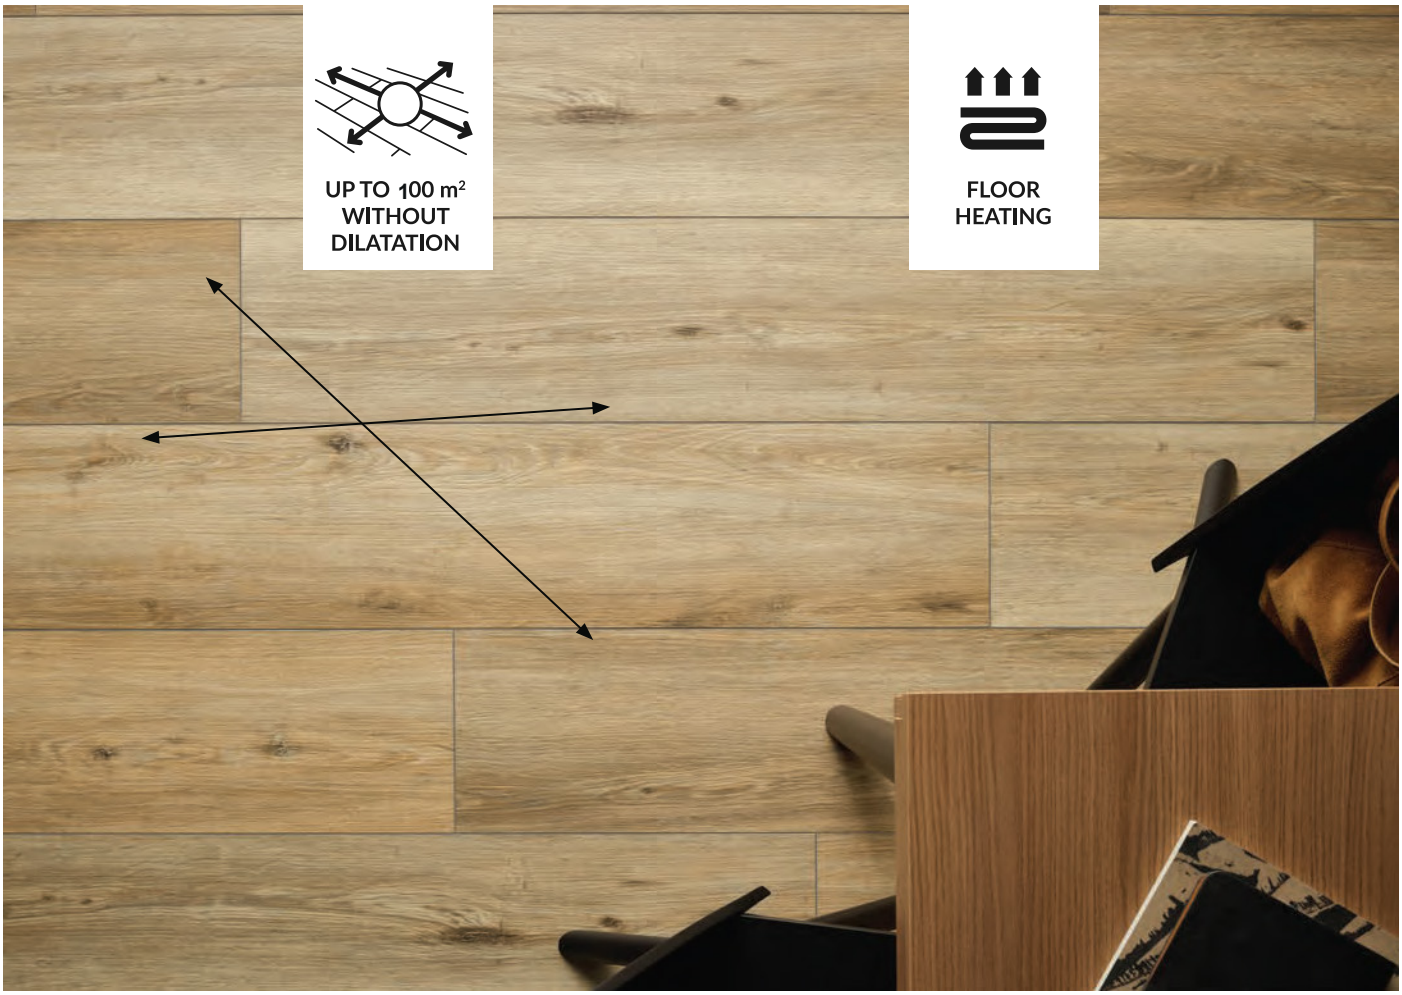

The use of underlay will absorb small surface irregularities of the substrate. Underlay protects locks and diminishes the sound hole effect.

SKIRTING BOARDS

It is said that the devil is in the detail. When it comes to floors, it is exactly the same. Skirting Boards will ensure a stylish finish to your floor. Skirting Boards are available in matching floor colours and accessories.
