A range of **10 Vivid Colours** are now available along with **9 Pastel Colours**. These are ideal for providing an aesthetically pleasing work area while still maintaining a high level of hygiene. The Colourline system can be used in open plan commercial kitchens and delicatessens as well as shower cubicles etc. You can also mix and match colours. All the PVC profiles and silicones are colour matched to the sheet. Available in 2500mm or 3050mm heights and 1220mm width. Ring 056 7752866 for samples or email info@enviroclad.com

Properties	Test Method	Unit	Solid Sheets
Mechanical			
Density	MSZ ISO 1183	g/cm^3	1,45

Colourline Projects

All systems meet the current E.U. food hygiene regulations

enviroclad installations

Introduction

Enviroclad is a Kilkenny based company which was set up in 1993 to cater for the growing need for hygienic surfaces for the food industry. Today Enviroclad is at the forefront in offering a wide variety of services to this industry and has added extensively to its range of products and services, making it one of Ireland's leading companies in this field.

With continued intensity of E.U. hygiene legislation in the food and meat industry, Enviroclad P.V.C. Wall and Ceiling Cladding Systems has outperformed many of the systems available on the market today. This high quality, long serving product is non-toxic, has no unhygienic grout and is very easy to maintain.

We have excelled in this country in recent years and have developed a healthy client base, from youthful enterprises to blue chip multinational food companies. Our philosophy of customer service, friendliness and professionalism has earned us a very high reputation in the food industry. With our highly skilled and friendly workforce, we will put you, the customer, first and ensure that you are at the focal point during all stages of installation.

Owing to our vast experience in this field, we can offer you a free design service, free survey and quotation on whatever system is chosen.

Commercial Kitchen

0.9MM, 304 CATERING GRADE, STAINLESS STEEL SHEETING SUPPLIED AND FITTED (TO HOT AREAS OVER 60ºC)

Product Details

ENVIROCLAD PVC HYGIENIC WALL CLADDING (White)

A smooth white pvc non-toxic wall cladding that provides a low maintenance solution for walls where hygiene is a priority. This product is impervious and can be thermoformed.

PRODUCT: ENVIROCLAD 725 EU GRADE HYGIENIC WALL CLADDING.

ADVANTAGES: Heavy duty, easily cleaned, chemically resistant, high impact resistant and can be pressure washed.
